EXPERIENCE

Appycodes Technologies LLP

September 2025 – Present

Backend Developer

India

Healthcare Clinic Management Backend | *Node.js, TypeScript, PostgreSQL, Sequelize, JWT, Winston*

- Engineered a production-ready dental clinic management backend supporting clinics, doctors, patients, family members, appointments, subscriptions, payments, scans, notifications, and webhooks, deployed on DigitalOcean Droplets.
- Designed a scalable database architecture with 27+ Sequelize models, 68 migrations, and 20 seeders; developed 74+ REST APIs across 30+ modules with automated Swagger/OpenAPI documentation.
- Integrated Razorpay, ScanKit, Firebase Cloud Messaging, MSG91, Zoho CRM, and AWS S3-compatible storage for payments, AI dental scans, push/WhatsApp notifications, CRM sync, and file uploads; implemented Winston structured logging and Sentry for production error monitoring.
- Automated 7 cron jobs handling appointment reminders, expiry workflows, membership renewal cycles, subscription lifecycle, user deletion, and daily Zoho CRM synchronization.

Sports Talent Platform Backend | *Node.js, TypeScript, PostgreSQL, Prisma, Supabase, Zod, GitHub Actions*

- Contributed to a production-ready backend covering authentication, player profiles, video highlights, subscriptions, uploads, and social engagement features, with JWT auth, email verification, and OTP flows deployed on DigitalOcean Droplets.
- Collaborated on a scalable Prisma/PostgreSQL data model on Supabase spanning 20+ domain modules, 30+ migrations, and 50+ indexes and constraints, leveraging Supabase Storage for media file management.
- Integrated Mux for video processing and background cron jobs for subscription lifecycle management, with storage quota enforcement for secure, media-based player profiles.
- Worked within a layered architecture — controllers, services, repositories, DTOs, and validation schemas — with GitHub Actions CI pipelines for linting, type-checking, and migration drift detection.

Fordel

March 2025 – June 2025

Software Development Engineer – Intern

India

Formula – Skincare Marketplace | *Next.js 15, TypeScript*

- Contributed to a large-scale marketplace platform with 300+ app pages, 290+ dashboard pages, and 20+ API route handlers across storefront, seller, customer, and admin workflows.
- Resolved critical bugs and performance issues across the codebase, consistently delivering fixes that met team standards and improved overall application stability.

Groveus Informatics

August 2024 – October 2024

Web Developer – Intern

India

- Built and maintained dynamic web application features with a focus on responsive UI/UX design, cross-device compatibility, and frontend performance optimization.
- Collaborated with the team to deliver iterative feature improvements, participating in code reviews and ensuring consistent quality across releases.
